# 3DESIGN Seminar, 12/2005

## Gem and Jewelry Industries Division

### Department of Industrial Promotion

**Bangkok, Thailand**

---

From December 14 until the 16 2005, our official **3DESIGN** reseller Comgraph in Bangkok, Thailand held a seminar at the *Gem and Jewelry Industries Division Institute*.

Wasan Dhanasupsomboon, our reseller presented **3DESIGN**: the leading 3D CAD solution for jewelry creation. Various professionals and expert CAD users participated into this event and discovered the amazing capabilities **3DESIGN** encompasses. Launched in Summer 2005, the new V4 version introduces *powerful new functions and wizards specifically dedicated to jewelry professionals* such as Automatic Pave, Locations for Jewelling, Prong and Bezel setting Creation Wizards a new Rendering Module, etc.

The event encountered such success and enthusiasm from the participants that the Institute decided to renew the experience *3 times a year*. The next session is already scheduled to take place in *March 15-17<sup>th</sup> 2006*. To register for this next session, please contact Wasan directly, phone: 0066 2 293 020 0 at 662/47-48 Rama 3 Road Bangpongpan, Yannawa 10120, Bangkok, Thailand.

The Head of department opens the Seminar

The session begins for all participants
